DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ishioka et al US patent No. 6,972,573 in view of Okawa shinichi Japan Patent application No. 2001-083214.

Ishioka et al ('573) in view of Okawa shinichi ('214)'s teaching, which meets the claimed invention, was discussed in paragraph 2 of the previous office action dated on 8/17/06.

Response to Arguments

Applicant's arguments filed on 11/13/06 have been fully considered but they are not persuasive. In the remarks, applicants argued that the claimed moving unit (20) moves above the printed-circuit board and is brought into contact with the contacts of the printed circuit board so as to sequentially perform inspection, whereas Ishioka et al ('573) is not designed such that the probe 22 moves above the printed-circuit board as recited in the claim 1 and Okawa shinichi ('214)'s probe does not sequentially perform measurement on the measurement points while it moves above the printed-circuit board. The examiner disagrees with the applicants' assertion because (1) the "sequentially perform inspection" is never recited in the claims 1-3 and (2) Ishioka et

al ('573)'s probe 22 can be rearranged to move above the surface of the printed- circuit board (see MPEP 2144.04 VI. C "Rearrangement of Parts).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
